Отчёт

“Методы машинного обучения”

Лабораторная работа № 2

“Изучение библиотек обработки данных”

ИСПОЛНИТЕЛЬ:

Студент группы ИУ5-21М

Коростелёв В. М. _____________

ПРЕПОДАВАТЕЛЬ:

Гапанюк Ю. Е. _____________

Москва – 2019

Задание

Часть 1. Выполните первое демонстрационное задание "demo assignment" под названием "Exploratory data analysis with Pandas" со страницы курса https://mlcourse.ai/assignments (https://mlcourse.ai/assignments) Часть 2. Выполните следующие запросы с использованием двух различных библиотек - Pandas и PandaSQL: один произвольный запрос на соединение двух наборов данных один произвольный запрос на группировку набора данных с использованием функций агрегирования Сравните время выполнения каждого запроса в Pandas и PandaSQL.
